

# A COMPLETE INTRODUCTION TO ABSTRACT ALGEBRA

## ERRATA

Kan Onn Kit

2024-10-09 2125H

Despite my best efforts, some errors have unfortunately been made in *A Complete Introduction To Abstract Algebra*. This document lists the errors that have been made, and their corrections.

### Since the 1<sup>st</sup> Edition

#### Major Errors

None found.

#### Minor Errors

- In example 5.1.5, I missed out a few elements in the set  $R$ . The full set should be

$$R = \{(3,3), (3,5), (3,7), (4,4), (4,6), (5,3), (5,5), \\ (5,7), (6,4), (6,6), (7,3), (7,5), (7,7)\}.$$

#### Typos

- There is a small typo in the answer of exercise 1.1(f). The non-italicised "S" should be italicised (as it is the name of a set).
